

Effective August 1, 2008 the board instituted a quality assurance review of the California Practice Standards and Jurisprudence Examination for Pharmacists (CPJE). This means that there will be a delay in the release of all CPJE examination scores until a certain number of individuals have taken the CPJE. This process is done periodically to ensure the reliability of the examination. Based on prior experience, the board believes this delay will last until mid-September.

The board encourages all qualified applicants to continue to schedule and take the CPJE exam. The greater the number of applicants who take the exam during this review period, the sooner results can be released.
